1 hour long Live Jazz Quartet,  
“hands on” presentation  
to 150 4th graders/presentation.

A FUN, INTERACTIVE program  
that teaches

Language Arts, Math & Social Studies,  
Critical Thinking & Test Taking Strategies.

NO post testing- simple teacher observation form.

**JazzSLAM** supports teachers’ efforts to raise student FCAT and other standardized test scores by teaching academics through the Aural, Visual, & Tactile (multiple intelligence) benefits of **Music**. Students participate in a “**Rhythm Orchestra**” and come to new understandings of fractions and percentages through subdivisions of a whole (note) as they clap, stomp, sing and dance with a **live, intergenerational, multi-cultural jazz quartet**. Your students soar out of their everyday world into a swinging world of pulsating rhythms and melodies.

From simple field hollers to 12 bar blues, **JazzSLAM** helps students **understand** the magical mysteries of the structures of songs, melodic contours, poetry/word families in lyrics, and parallel **essay writing forms**.
